Matías Nuccetelli

Software developer

About me

I'm a Software developer born in La Plata, Buenos Aires.
I love the web-world since I'm a child. At the age of 15 when I was at high-school, I started coding in HTML & CSS, and I was so very excited about these technologies, so at 17, I started programming in JavaScript and my mind started blowing. I always studied and learned on my own.
Date of birth: 03/28/2000
Education: Colegio Padre Castañeda (primary school and high school)

Knowledge

Frontend: HTML, CSS, JavaScript, Bootstrap, VueJS, ReactJS, NextJS, Tailwind CSS, MaterialUI.

Backend: NodeJS, Express, PostgreSQL.

Extra: Git, Figma, Docker.

Experience

Datia | Sweden (Remote) (Nov 2020 - Now):
Datia helps you automate your sustainability workflows and manage the EU Taxonomy and Sustainable Finance Disclosure Regulation.
My current role in the company is: Junior Software Engineer.
Stack: ReactJS, NextJS, MaterialUI, TailwindCSS, NodeJS, Express, PostgreSQL, Docker.

Rather Labs | Argentina (Remote) (Aug 2020 - Nov 2020):
We all like to give recommendations about certain aspects of our lives that we enjoy, that we value or use. And on those aspects that we remain in doubt, we like to consult people we know can give us valuable recommendations.
My role in the company was: Front-end developer.
Stack: NextJS and a CSS framework named "RatherCSS" very similar to TailwindCSS built by me.

Projects

NextTime (July 2020 - Now):
NextTime is an open source web application that allows you to know the time in any country in the world, either now or in the future.
Stack: VueJS, Bootstrap.

Bitflix (May 2020 - Now):
Bitflix is an open source web application that allows you to watch movies through torrents directly in your browser. I'm the creator, developer, designer and maintainer of the app, but it is also connected to third party API's and projects.
Stack: VueJS, Bootstrap.

You can find more personal projects on my GitHub account.

Languages

Spanish (native) and english.
